

## 2015 WOGA CHAMPIONSHIPS

### SPECIAL NOTICE TO PARTICIPANTS

The Women's Oklahoma Golf Association will **NOT** adopt the Condition of Competition that limits players to clubs manufactured with grooves and/or punch marks that conform to all aspects of the Rules of Golf, including those that are effective from January 1, 2010. While WOGA considers the majority of participants in its championships to be high level amateurs, it also regularly hosts some players for whom compliance with this Condition of Competition could impose a financial hardship or the possibility of not being eligible for entry.

For those players with aspirations to qualify for any of the USGA's national championships, it should be noted that the Condition **WILL** be in effect for all amateur championships and qualifying rounds, beginning January 1, 2014. For program details, players should visit

[www.usga.org/equipment/testing/InviteForOpenClubTesting/](http://www.usga.org/equipment/testing/InviteForOpenClubTesting/).

To determine if a club or set of clubs conforms to the new specifications, players should first search the Informational Club Database (Grooves) which is available on the Equipment page at [www.usga.org](http://www.usga.org).

Additional questions may be directed to the USGA Rules Department at 908-234-2300 or via e-mail at [rules@usga.org](mailto:rules@usga.org).
